Mission Statement

We are a non-profitable charitable institution; we provide holistic education to children with special needs; we aspire to build them live life beyond the barriers manifesting God's purpose in their life.

Our Aims and Objectives

1. To love and care for those special needs children; live life beyond the present by providing specialized curriculum and occupational therapy for each individual.
2. To create awareness for the people that children with special needs can be brought to live a normal life when given attention.
3. To enable them to see the horizon with a new perspective and accept themselves as they are.
4. To provide equal opportunity to those children as any others either at school, church or any institution without any biasness.
5. To provide program for specific learning disabilities, speech or language impairments, mental retardation, multiple disability, hearing impairment, visual impairment, autism, down syndrome etc.
6. To identify those children and help their parents seek early intervention from the experts.
7. To educate people that they are not a curse from God but to glorify Gods purpose through their life.

Few of our Activities:

TEA provides a holistic education to both the normal and the special needs children. Apart from the normal regular classes, TEA endeavours to impart:-

- Physiotherapy
- Music
- Occupational therapy / daily living skills. Skills to live life independently/ independent eating and drinking, learning to do art and craft etc.
- Personal hygiene – learning to use the toilet, wash or clean themselves, self-grooming.

- Home based education for those children who cannot join the regular classes. Teachers go to their homes besides teaching them pre-reading and writing skills. They spend time and pray with them. The appointed teachers also in a way educate the parents how to handle their children, how to react to their needs without abusing or spoiling them.

TEA shares the gospel and reaches out to the children through stories from the Bibles, Pictures and Songs etc.

Prayer Requests

- Pray for God's healing upon all the children who are enrolled in TEA
- Pray for patience, passion, and compassion upon all the teachers who are dealing with them.
- Pray that God will touch the hearts of the people to sponsor some of those children who are unable to pay their fees
- Pray that God will touch the hearts of people to donate a set of computers for the school.
